Szymon Jankowski

PROFESSIONAL PROFILE

Energetic, self-disciplined, detail oriented individual. Truly passionate, and excited about Programming. Analytical mind, driven by results. Ready to use his outstanding technical, and problem-solving skills. Hard working professional who can work effectively alone, as part of a team, or as a head of the team.

KEY SKILLS

- HTML, CSS, JavaScript, NodeJS, React, Express, Bootstrap (5.0+)
- MongoDB, PostgreSQL
- Debugging, GIT
- Outstanding Problem-solving
- Interpersonal and communication skills - fluent in English and Polish (mother tongue) and advanced in Spanish

PROJECTS

- **Gym-Tester:** <https://gym-tester.herokuapp.com/>
A RESTful API driven modern CRUD application with fully responsive design, covering security issues, both back-end and front-end form validations.
- **Gift-For-Him :** <https://gift-for-him.netlify.app/>
MERN responsive E-commerce website. Using redux-store, react hooks, Local storage and Integrated it with back-end that is serving data from Mongo Atlas. I didn't use any CSS framework for this project
- **Calorie-Demander :** <https://simonjankowski.github.io/Calorie-Demander/>
React application that is one of most complex daily energy planners. Built with react classes

NOTE: I frequently upgrade those projects, all the repositories are linked on my portfolio website [HTTPS://SIMONJANKOWSKI.NETLIFY.APP](https://simonjankowski.netlify.app)
